The Alumina range is specially designed for modern retail, the absolute best in the market of vertical eyewear presentations, secured when needed. The profile blends in and the frames stand out perfectly. Security and efficiency are our starting points. The smooth finish of all the components provides your frames the best protection. The vertical movement of the locking mechanism is extremely strong and durable. The range exists of: open, key-lock and remote-controlled versions, 15 and 18 positions (other sizes on request). The assembly options are: Straight wall fixings (long and short); Swivel wall fixings and Top-bottom fixings.
