

Customers will appreciate the beauty and style of this easy access design along with its functionality and quality. These 5/8" inch diameter acrylic rods are perfect for every location with a wall. Available with regular size and large Y-clips as well as the flat clips, this rod combination is designed for ophthalmic or sunglass frames. Expertly manufactured, these display rods are designed for both you and your customer's convenience. The curved acrylic rod design catches the eye and holds eyewear upright and even. What makes the display model really stand out are the clip eyewear holders. They are removable, re-adjustable and display the frames in an open position. All rods are available in three lengths with 10, 12 and 14 standard frame holders per rod. The displays snap into a set of two end caps that attach to the wall. Two end caps for each rod are provided in the package
