

Our Eileen shelving display gives you multiple options for showing your frames as well as providing storage. Eileen comes with 4 acrylic shelves, which can be used alone or with our Pin panels, specifically designed for displaying eyewear. Each panel holds 16 frames for a total of 64. Below the shelves, you can add our 2-drawer, soft close cabinet which sits perfectly within the space beneath the lowest shelf. Above the Eileen display, feel free to add our LED lightbox in which you can advertise a brand, a logo or any picture of your choice. We can supply the artwork in film print form. The Eileen display is 34 1/8" wide x 74" high x 21 3/8" deep.
