

Floor Standing Wing Optical Frame Display

An innovative stand that provides support for your acrylic panels, without having to mount the panel on the wall, the Wing Display Towers are available in two sizes, 12" wide and 19 7/8" wide. You will need a single 12" wide tower to support a narrow panel, i.e. APP-3-14, or two 12" Wing Display Towers to support a large size panel, i.e. APP-9-14 on each side of the Towers. The 19 7/8" wide Wing Display Tower includes a mirror and can be used as a center tower between two 12" towers as shown in WING-6.

All of the panels are sold with the hardware necessary to mount them to the Wing Display Towers. Panels are 9mm or 3/8" thick. The panels can be ordered in either clear, frosted ice, polar white or glass look acrylic. The Wing Display Towers are available in Stained-Oak, Stained-Cherry, Stained-Espresso, White and Black. The stand-offs are available in 85 mm stainless steel finish. All installation hardware will be included in the package.
