

Kip Optical Genius Bar is the highlight of the optical showroom. This sleek yet sturdy design is perfect for face-to-face client consultations in a more casual setting, or for providing a convenient way for clients to try on their selected frames. The Kip Optical Genius Bar stands out with its unique aluminum support structure and a wide range of available colors. Removable gable covers ensure tidy wire storage, and assembly is straightforward with a small kit of parts.

Ideal for any open optical environment, the Kip Optical Genius Bar is the perfect spot for clients to try on frames, engage in side-by-side or across-the-table conversations, and feel comfortable while waiting to be seen by the doctor.
