

# Magnifying Optical Mirrors

Exactly what the doctor ordered - magnification mirrors that provide up to 10x magnification! Our K-line mirrors are steel and brass and come in various finishes. They all undergo a 4-step process to prevent pitting and tarnishing, and mirror frames are pre-tensioned so they never need adjustment. All styles also have a weighted and padded base for added stability and durability. Browse through our selection to find the perfect style and magnification for your needs. Be sure to check out our lighted, magnification mirrors, too!
