

D50 & D51 - Roman Pillar Classic Optical Frame Displays

If creating a theme consider using a clear, solid acrylic display d.50, which resembles the classic shape of a roman pillar. The display can be placed vertically or horizontally to present eyewear frames and peak customer interest. Similar to d.50, but with flare, d.51 presents a twisted acrylic center, which is hollowed out and filled with several colors including green, blue, pink, yellow, orange and purple.
