

Pin Display Panels for Optical Frames

Introducing our USA-made vertical open presentation system, featuring linearly arranged holes for temple insertion in acrylic and nickel-plated steel support pins for bridges. This minimalist panel maximizes visual impact. Crafted by CNS Frame Displays, these modular acrylic panels offer next-generation optical displays. Available in various sizes and finishes, easily install them with our reliable wall-mounted stainless steel standoff systems. Panels, 9mm thick, come in Clear, Frosted Ice, Polar White, or Glass Look acrylic, paired with 85mm stainless steel finish stand-offs. Each panel, inclusive of 4-8 stand-offs based on size, includes installation hardware. Contact us for custom-made panels or sizes. Please note, a \$50.00 fee applies for original setup of custom panels, non-returnable except for defects and with prior approval. Orders for these items are non-cancelable once placed.
