

WALL MOUNT ACRYLIC PANELS WITH RODS

Introducing the next-generation optical displays from CNS Frame Displays, meticulously crafted in the USA and Europe using modular acrylic panels. These innovative designs offer versatility in various sizes and finishes, effortlessly installed with our stainless steel standoff systems. Explore an extensive assortment of panels, each sold with mounting hardware included. For added brilliance, lighting and rod options are available upon request.

Choose from 9mm thick clear acrylic or pastel frosted green glass-look acrylic panels, paired with 85mm stainless steel finish stand-offs. Each panel includes 4-6 stand-offs depending on size; rods are available separately. For custom sizes, contact us for made-to-order panels tailored to your requirements, with a \$50.00 setup fee. Please note, customized items are returnable only for defects and with prior approval, with orders being non-cancelable once placed.
